

SpaceKraft

THE TOUGHEST PACKAGE IN THE FIELD

SpaceKraft® seed bins eliminate contamination, reduce handling, and can be reused up to 30 times.

EASY SETUP. It takes one person one minute to prepare the SpaceKraft bin for filling.

ELIMINATE CONTAMINATION.

A clean, fresh liner each time eliminates the chance of cross-contamination.

REDUCE HANDLING LABOR AND TIME. Just one bin holds as much as 24 fifty-pound bags, eliminating multiple filling and handling operations.

GET MORE FROM YOUR STORAGE SPACE. More than 34,000 pounds of compression strength allow stacking up to six high.

RE-USE UP TO 30 TIMES.

Not just for shipping. Due to their reusability, SpaceKraft® seed bins are ideal for closed loop operations.

“We’re required to certify our seed for purity, but grass seed is so small and fine that it can catch in every welded seam and wrinkle in a bulk bag. You just can’t clean them thoroughly enough to insure against contaminating one type of seed with another. With the rigid SpaceKraft® containers, we use an inexpensive new liner every time we reuse a container, thereby completely eliminating the possibility of seed contamination.”
